## McCarthy Says Some Americans Red Has Access Turned Pro-Red To Secret Data

Washington (A) -- Sen, McCarthy (R-Wis) said last night new evidence has come to light indicating that a member of the Communist party now has access to secret data of the Atomic Energy Commission, the military and the

Central Intelligence Agency. McCarthy made the statement to newsmen after questioning four witnesses for two hours at a closed-door session of his Senate investigations subcommittee. He refused to name the witnesses.

Sen. Dirksen (R-III), who attended the hearing, said the subcommittee had run across "the beginning of a trail" which might lead to sensational disclosures.

"It very definitely involves the national security," Dirksen said, "if the facts are as they were developed today."

A reporter asked Dirksen:

"Does this involve Communists presently in the government?" Dirksen: "Yes, if the case is

### Chance To Save Lives

A special committee of the Medical Society of the State of Pennsylvania will try to decide just what a physician should do to prevent a patient with dangerous heart trouble from driving a motor vehicle.

The sub-committee making the study has worked up case histories of drivers with heart ailments who have died behind the wheel in traffic accidents.

Doctors who attended these people at one time or another, and had knowledge of this physical condition, were asked whether or not their patients ought to have been driving. In addition, the physicians were asked to state what should be done to keep such tragedies from happening

Certain heart conditions make it unwise for the patient to operate a motor vehicle, and his physician is best qualified to recognize such a case.

It seems that a number of years ago when our present head of maintenance surprised our major appliance department, he attended the West End Fair in conjunction with the annual Frigidaire display. Accompanying him were several salesmen, loaded down with giveaway balloons, a tank of helium, and a lot of printed material. All went well, until one of the concessionaires objected to Wyckoff's spoiling his balloon business, and Jack agreed not to give anymore away. It was too bad, because they were a lot of fun, and the kiddies loved them . . . but after all, ruining another fellow's business is had business all around.

and before long, the bailoons were released in all their glory to the West End sky. Up they went, zooming away at a speed that was our trio of enterprising appliance men decided, they need only sit down and wait for business. It would come too for attached to the strings had been the invitation to notify Wyckoff's upon discovering the pamphlets, and receive

The idea was excellent, except that our crew had overlooked air currents. A balloon released in Kunkletown, doesn't come down in Delaware Water Gap . . . or Strondsburg . . . or Saylorsburg.

faithful service. The story made the newspapers, and Wyckoff's shipped the dishes. What's more, Frigidaire notified the dealer in Kennebunkport, who visited the family, and sold a new refrigerator.

Sometimes these urges, warmed over from childhood, have unforseen results. But if Wyckoff's can help business along for some nice fellow in Maine--well, that's 600D business all the way around.

By the way, Mother, have you begun thinking about school clothes for the children? I began yesterday when I saw the racks of adorable dresses for little girls, priced anywhere from \$2.98 to 86.98, and all beautifully styled and washable. And what about your own winter coat? We have some lovely furred styles on display. All you need do is come in. see for yourself, and buy on our easy layaway plan. You can also apply this plan to wearing apparel for Dad and to those wonderful big toys for Christmas giving . . . Talking about clothes, I've never seen anything more exciting than the Can Can half slips in our lingerie department-of velvet ribbed taffeta and nylon net, in green, purple, or red, at \$7.95. There's

this much about it, if you can't

Each show will be 15 minutes in length. Carlesimo has made many friends in Monroe County and with his fine after-dinner speeches at several local functions. Is it true that at least one member of a first division club in the Pocono Mountains League is finished for the present campaign at his own choice?

Today's Pocono Mountains Little League baseball game, being played on the Tobyhanna Township High school field, Pocono Pines, is not only the last tilt of the current campaign but is also the most important. If Mount Pocono Rotary should win today's encounter, being played at 6 p.m., it will win the league championship, but a victory by the Pocono Lions would bring the season to a close with both teams deadlocked for the number one position. The Pocono Lake entry in the Pocono Mountains League, the adult ene, will hold a benefit dance on Friday, at Mulligan's Hotel. Proceeds will go toward covering expenses of the club this season

Fiere is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name, if the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your keynumber. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figure give you.
